### Clone Repo

```
git clone https://github.com/2noise/ChatTTS
cd ChatTTS
```

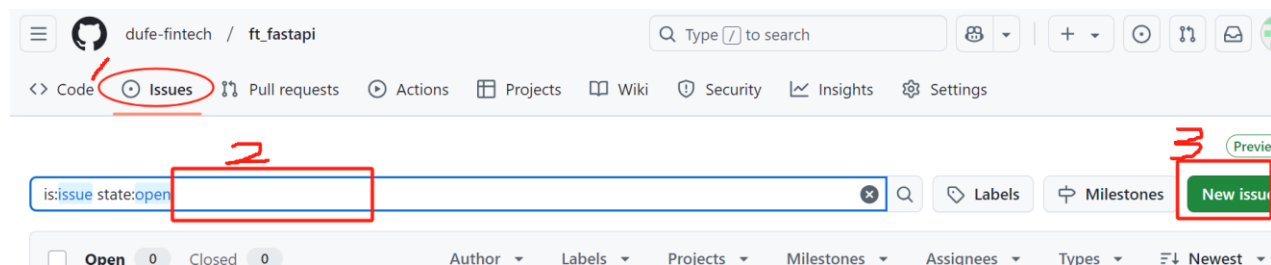

### Install requirements

#### 1. Install Directly

```
pip install --upgrade -r requirements.txt
```

#### 2. Install from conda

```
conda create -n chattts python=3.11
conda activate chattts
pip install -r requirements.txt
```

# | 在Github项目中发布issue

The screenshot shows the GitHub interface for a repository named 'dufe-fintech / tt1'. The top navigation bar includes links for Code, Issues (highlighted with a red circle and showing 1 issue), Pull requests, Actions, Projects, Wiki, Security, Insights, and Settings. Below the navigation bar, the issue title 'issue1 #1' is displayed, along with an 'Open' status button and 'Edit' and 'New issue' buttons (the latter is highlighted with a red circle). The main content area shows a comment from 'dufe-fintech' opened 1 minute ago, with the text '你写的是啥代码? 太简单了吧, 有啥用呢' circled in red. A context menu is open over the comment, showing options: 'Copy link', 'Quote reply', 'Edit' (highlighted with a red circle), and 'Report content'. At the bottom, the 'Add a comment' section is visible, with a 'Write' button circled in red and a rich text editor toolbar.
